

ACTIVOTE from Network & Cabling Solutions

ASSESSMENT AS EASY AS ABC (WELL, A B C D E F)

How do you know how well the class is following a lesson?

Traditionally, you find out some time later - when written or follow-up work is analysed. By which time students are unable to remember exactly what their thought processes were - and when they started getting left behind.

Promethean's unique Activote makes assessment quick and easy.

It's a user friendly, hand held device - designed specifically to work with the Activboard.

Promethean are the only company that produces both boards and response systems, though it's cleverly designed to be perfectly compatible with other boards, MACs or PCs too.

Ask a question - either planned into your lesson, or spontaneously...

The students click their answer - from under their desk if they want. (product testers insisted on radio, not infra-red, technology, so students could keep their answers private from each other if they wished.)

And teachers gain instant insight - you can tell who's in class, who had breakfast, how well a lesson's been understood... or even predictive grades. Votes can be recorded by individual student or by the whole class - and can be saved to a flipchart or spreadsheet. Letting teachers know who's clicked. Literally.

Activote is Europe's most popular handheld student response system and works with any interactive whiteboard.

Solutions for Schools, for Business, for Government

Complete with

Wire-free technology 'Talks' seamlessly with other products with no awkward cables.

Radio connectivity Works anywhere in the class. Unlike infra-red devices, no line of sight is needed.

User friendly design Tough, but easy to hold for small or big hands, with rubberised non-slip surface.

Tamper proof battery casing Designed to keep inquisitive fingers away from the innards of the unit.

Torx screwdriver To let you change the batteries when you need to.

A carry case For easy storage and transport of your voting kit.

Quick start guide To get you up and running.

Warranty 12 months.

Free extras Support, user forum and resource downloads from www.prometheanplanet.com.

Online training and professional development available at www.prometheanlearning.com.

Choose from

Student response kits 16 or 32 Activote handsets.

A Student response system with either Activstudio or Activprimary software, ready to use question sets and a hub to enable the system to work with any interactive whiteboard.

An upgrade kit with a wire-free pod and votes to upgrade older non-radio Activboards (so existing users can take advantage of the system too).

Training courses Specifically designed to help you get the most out of your voting kit - either at Network and Cabling Solutions head office or in your school.

A range of software that includes fully integrated opportunities for response.

And add

The Activ range of products are designed to work easily with each other, in a package to suit you...

Activboard Prometheans market leading, full function interactive whiteboard provides 100% mouse functionality. Available in 64" and 78" versions as well as the latest 95" widescreen format.

Activslate All the power of the Activboard in your hand. Interact with the Activboard with their A5 wire-free 'mini-board', small enough and tough enough to pass around the class or have one per desk.

Activhub Enables you to use your slate or vote with a computer, even if you don't have an Activboard, or if you have, dare we say it, another make of interactive whiteboard.

Activtablet Acts just like a small Activboard. The best way to prepare lessons wherever you are, or for drawing, designing or tracing where you need to use a pen.

Activpanel A 15" LCD mini - board. Attach it to your PC and projector and view exactly what's on your screen. Ideal for lecture halls and large classrooms.
